Breathe Easier, When the Pressure Is On.

Firefighting is serious business. Your aircraft is the last thing you need to think about at critical moments. When lives are on the line, it’s our top priority.

CompAir breathing air systems, compressors, air supply, and SCBA refilling stations are all backed by warranty. A world leader in compressor air technology, we’ve been perfecting product performance since 1930. ISO certification of our manufacturing process ensures quality, reliability, and value in every product.

We leave the firefighting to you. When it comes to the air supply you depend on, you can trust CompAir. Complete. Insist on CompAir...your life depends on it.
